- ☐ American Express
- ☐ Discover Card

Donor Development

As a donor, your gift to LLS will help advance cures for blood cancers and improve the quality of lives for patients and their families. You can help make a significant difference by partnering with us. Funding opportunities are available in cutting-edge research, patient services and professional education initiatives. Now is the time to join us on a journey of hope.

There are several ways your gift can bring us closer to finding cures:

Estate Planning

Many of our lifesaving research and patient service programs have been made possible by people who have included LLS in their will, trust, insurance policy, or other estate planning vehicle. We thank people during their lifetime for their gift of the future as Legacy Circle members.

Gift of Security

Using securities. Make a gift with appreciated stock, bonds or mutual fund shares held for one year or more and obtain a charitable gift deduction for the full market value and avoid capital gains tax.

Matching Gifts

Corporate matching gifts are an easy way for people to increase the impact of their personal contribution to LLS. By taking advantage of a company's matching gift program, a donor can generate an additional gift that may automatically double or triple his or her own contribution.

Combined Federal Campaign

This is a way for government employees to support local and national charities through payroll deductions beginning in January and continuing through December. One time gifts are also possible. Please indicate LLS on your payroll deduction form.

Community Foundations

With a donor advised fund, an individual, family or corporation can make an irrevocable, tax-deductible contribution of personal assets to LLS and can also recommend grant distributions as well.

Event Guide

As part of the **Team In Training®** (TNT) program, you will experience an amazing journey of making new friends, training for an endurance event and raising funds for blood cancer patients. No matter your fitness level, TNT will help walkers, runners, cyclists, triathletes, and hikers turn their endurance goals into a reality. In exchange for fundraising for The Leukemia & Lymphoma Society, Team In Training will take you on the ultimate endurance adventure that includes certified training, social connection, incredible destination selections, and event weekend amenities.

Light The Night ® is LLS' annual evening walk to celebrate and commemorate lives touched by cancer. Taking steps towards cures, teams of friends, families, co-workers and businesses in the community gather together in September in St. Louis' Forest Park. They walk in twilight, holding illuminated balloons—white for survivors, red for supporters and gold to honor a life lost. More than a walk, the evening includes music, food and family activities.

School & Youth Programs. Since 1993, over $100 million dollars have been raised in pennies and other spare change by elementary, junior high and high school students throughout the country. Hundreds of local schools participate each year in the national School & Youth programs, Pennies for Patients ® and Olive Garden's Pasta for Pennies. All materials are provided by LLS, including a campaign guide, collection boxes, campaign posters, and educational DVD, Honored Hero poster, and parent letters and individual boxes for elementary and middle school students.

Man & Woman of the Year is a ten-week, friendly fundraising competition among individuals in the community. Male and female candidates who raise the most funds during the campaign will be awarded the title of The Gateway Chapter's Man & Woman of the Year, respectively. Their totals are then considered for the national title. Candidates run in honor of the Boy & Girl of the Year, who are local blood cancer patient survivors and sources of inspiration to others.

Patient Services

Patient Financial Aid Program

Provides up to $100 per year for all blood cancer patients, regardless of income, to help cover costs associated with transportation, drugs and treatment.

Co-Pay Assistance Program

Provides assistance up to $10,000 per year based on diagnosis and income for insured patients with many, but not all, of our blood cancers. To inquire, call your local Gateway Chapter.

Family Support Groups

With professional guidance, patients and family members can gain information and support from others who share similar experiences. Call (314) 590-2239 for current dates, times and locations.

Advocacy

Advocacy volunteers contact their elected representatives to promote government research funding and improvements in public health policy.

First Connection

Patients and caregivers learn coping skills and gain hope from trained volunteer survivors, who share their personal perspective on the recovery process.

Back to School

The Society provides a wealth of informative print materials that help assure a child's smooth transition from treatment back to school and the activities of daily living.

Education Programs

We offer educational materials and programs free of charge to help clarify treatment options and strengthen decision-making and coping skills for patients and their families. We also have programs for health care professionals, with continuing education credits for nurses and social workers.

Information Resource Center (IRC)

Health professionals are available to provide accurate, up-to-date information on blood cancers. The IRC is also available on the website (Live Help online) at www.lls.org or toll free at 1-800-955-4572

Honored Hero Program

Honored Heroes and families provide inspiration for our fundraising event, fueling their efforts to raise funds that support research and help patients.
