

LEUKEMIA & LYMPHOMA SOCIETY®

The mission of The Leukemia & Lymphoma Society (LLS) is to cure leukemia, lymphoma, Hodgkin's disease and myeloma, and improve the quality of life of patients and their families.

children

In 1964, the five-year survival rate for children with the most commonly diagnosed pediatric leukemia was 3%. Today it's approximately 90%.

therapies

Nearly 40% of new cancer therapies approved by the FDA between 2000 and 2017 were first approved to treat blood cancer patients.

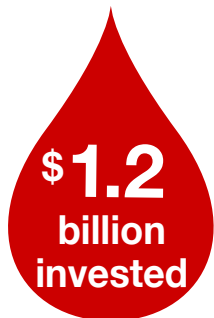

survival rates

Since the early 1960s, survival rates for many blood cancer patients have doubled, tripled or even quadrupled.

~ 1.2 million

people in the U.S. are living with, or are in remission from, a blood cancer

For more than 68 years, LLS has invested more than \$1.2 billion to advance cancer therapies and save lives.

fact: LLS-funded research has led to many of today's most promising advances, including targeted therapies and immunotherapies. LLS exists to find cures and ensure access to the best available treatments for all blood cancer patients.
