

LLS Community Guide: Joining groups to see disease and topic specific content

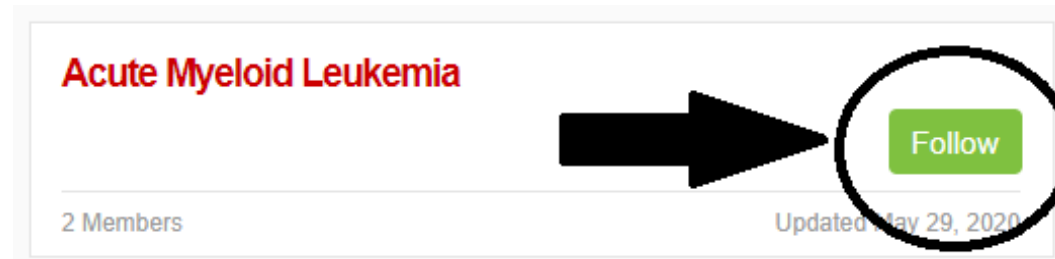

In order to see disease and topic specific content on your home page feed, you must “follow” groups. While logged in, click on the gray **Groups** on the top menu bar. There are both public and private groups. Anyone is welcome to join public groups. For public groups, you can click the green **Follow** button.

Please join LLS and Dr. Stuart Goldberg, MD, Chair, Division of Outcomes Research, John Theurer Cancer Center, for a free webinar, Insight Into Chronic Myeloid Leukemia, on 9/24/20 at 1 PM EST. Participants will learn about the importance of monitoring your CML, treatment options for CML, treatment-free remission, and side effect management and quality-of-life issues for patients. To register by phone, call 866-992-9950.
