This activity is supported by independent educational grants from Jazz Pharmaceuticals, Inc. and Onyx Pharmaceuticals, Inc., an Amgen subsidiary.
TARGET AUDIENCE

This activity has been designed to meet the educational needs of hematologists-oncologists, oncologists, physician assistants, nurse practitioners, and oncology nurses involved in the care of patients with acute lymphoblastic leukemia (ALL).

EDUCATIONAL OBJECTIVES

After completing this activity, the participant should be better able to:

• Describe the latest developments in acute lymphoblastic leukemia (ALL), including current and emerging treatments
• Discuss the different treatment options being utilized for pediatrics, young adults, and adults
• Engage patients and caregivers in clinical trial discussions on emerging therapies for ALL
• Identify strategies for optimal patient care
• Apply evidence-based treatment strategies
